

## PAINT PROTECTION FILMS

At CovrGard, we're committed to providing industry-leading Paint Protection Films (PPF) that deliver unmatched durability, superior fit, and a flawless finish.

Whether you're an installer seeking reliable, easy-to-apply films or a vehicle owner looking to protect your investment, our innovative solutions are tailored to meet your needs.

### CUSTOM AESTHETIC OPTIONS

Choose either high gloss or satin / matte finishes, or take a look at our 'fashion films' such as sleek black gloss or carbon finish to achieve the perfect look whilst also protecting your vehicle.

### VERSATILITY FOR ANY APPLICATION

From partial protection to full-body wraps, our range of films accommodate every project scope, providing versatile solutions for diverse customer requirements.

### ENGINEERED FOR PRECISION

Our vehicle patterns are crafted in-house using advanced GRAFX 3D scanning technology alongside traditional methods to ensure perfect fitment for any vehicle make, model and variant. Achieve complete coverage quickly and efficiently without the hassle of extensive trimming or adjustments.

### SELF-HEALING TECHNOLOGY

Surface scratches fade away with heat activation, keeping your vehicle looking fresh and flawless.

### QUALITY ASSURANCE

Products sourced from global leaders to meet our exacting standards.

### VIRTUALLY INVISIBLE

If you look for it, you will find it – if you don't know it's there you will never see it! CovrGard Paint Protection Films protect your vehicle whilst remaining virtually invisible, enhancing the finish of all treated surfaces.

COVRGARD<sup>®</sup> MATT

VIRTUALLY INVISIBLE

Matte painted surfaces are particularly difficult to maintain so why not take away that headache by installing our superb matte protection film. Made to protect and preserve that vulnerable finish.

COVRGARD<sup>®</sup> GLOS+

SUPERIOR GLOSS

With improved clarity and a superior depth of shine coupled to a 'state of the art' super hydrophobic highly resistant topcoat, you can be assured that treated vehicles will remain in 'showroom' condition for years to come.

COVRGARD<sup>®</sup> SATN

OUTSTANDING CLARITY

With outstanding clarity and a soft 'satin sheen' coupled to a highly resistant top coat, you can be assured that vulnerable satin finished surfaces will remain in 'showroom condition' for years to come.

COVRGARD<sup>®</sup> CRBN

CARBON LOOK

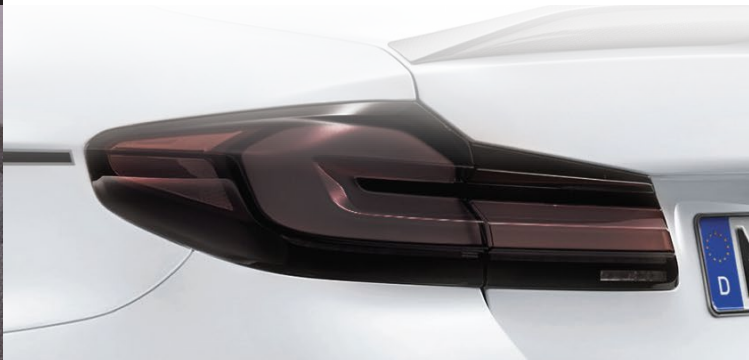

CovrGard CRBN is a high-performance film, to give that 'Carbon Look' whilst also designed to protect vulnerable surfaces from the damage caused by impact and abrasion.

COVRGARD<sup>®</sup> LITE

CUSTOM PROTECTION

An innovative smoked TPU film for custom application on headlights and taillights to give that high end tinted appearance, whilst providing the ultimate in protection. Available in both 35% and 50% VLT for personal variety.

COVRGARD<sup>®</sup> BLAK

ULTIMATE BLACK

Whether you are looking for some custom styling or merely to refresh tired 'piano black' surfaces – the gloss levels are 'off the charts' on this black protection film, also available in a matt finish.
