

COVRGARD

TECHNICAL DATA SHEET

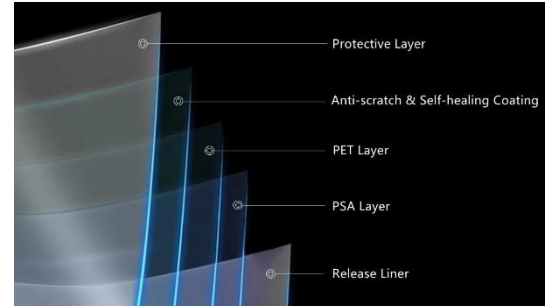

P.E.T. Windshield Protection Film

General Description:

CovrGard Windshield Protection utilizes high-performance film, designed to protect the vulnerable glass surfaces from the damage caused by impact and abrasion. Using an optically clear PET with acrylic adhesive system, these products provide excellent hydrophobic properties.

Warranted against manufacturing defects including UV degradation, bubbling and cracking, CovrGard applies easy and maintains its clarity and durability in a wide range of environments, providing improved chemical and mechanical resistance.

	COVRGARD PET
Total Thickness	4.5 mil (115μ)
Visible Light Transmittance	93%
Hardness	6H
Haze	≤0.8
Adhesive Strength	≥180 gf/in
Durable Temperature	-30°C to 140°C

Recommended Shelf Life – 2 years from date of purchase

Recommended Storage Conditions - 72°F (22°C) @50% RH

Recommended Film Handling - Always ensure film is wound tight and taped firmly in between usage

Important notice to purchaser: All statements, technical information and recommendations are based on independent test results as shown above. Before using any product in any application, it is recommended that testing for suitability for intended use is carried out.
